

Organics the Easy Way®

Guarantee® Organic

Guarantee Your Garden's Success...

Guarantee® Organic is made from nutrient-rich kelp extracts from the North Atlantic Ocean. It promotes plant vigor, root growth and stress resistance. Use on all organic crops.

How to Use

Use as a foliar spray or soil drench.

Standard Mixture – Mix 60 ml. (2 oz.) of product in 3.8 liters (1 gal.) of water. Wet plants with solution and apply to soil around plant base. For large areas, use hose-end, pump or backpack sprayer. Standard mixture will cover 9.3 sq meters (100 sq. ft.)

For Best Results – Spray early in morning or late in day. Cover surfaces fully. If applying to soil instead of using as foliar spray, use sufficient mixture to fully wet root area.

“Spray fruit trees with kelp extract at bloom time and when fruits are forming...”

Flowers, Fruits & Vegetables –

Apply standard mixture twice a month during the growing season.

Trees – Apply 3.8 l. (1 gal.) of standard mixture per inch diameter of trunk as a foliar spray in Spring and Fall. As a drench, apply 7.6 l. (2 gal.) of standard mixture per inch from trunk to drip line.

Shrubs – Apply 3.8 l. (1 gal.) of standard mixture for every 12 in. of growth in Spring and Fall.

Lawns – Apply 120 ml. (4 oz.) in 3.8 l. (1 gal.) of water per 93 sq. m. (100 sq. ft.) every 2-3 weeks.

Indoor Plants – Apply standard mixture 2 times per month.

Transplants

For Trees, Landscape, Roses and Bedding Plants – Use standard mixture. For large areas, use 3.8 liters (1 gal.) *Guarantee* to 380 liters (100 gal.) of water. Spray on plant to be transplanted both before and after transplanting, making sure solution gets into the root area.

Storage and Use Precautions

Store away from sunlight. Do not freeze. Keep cap closed. Shake before each use. (Some natural settling may occur.) Keep out of reach of children.

Use All MaineStream Organics® Fine Fertilizers.
